- System Optimization & Upgrades

DIVISION 03: SOLAR POWER SYSTEMS

Batubatsi TS delivers solar and backup power solutions designed to ensure energy reliability and reduce dependence on the national grid.

Solar System Installations

- 3kVA Solar Power Systems
- 5kVA Solar Power Systems
- 8kVA Solar Power Systems
- Custom-Designed Solar Solutions

System Components

- Solar Panel Installation
- Inverter Installation & Configuration
- Lithium Battery Storage Systems

Backup Power Solutions

- Hybrid Power Systems
- Emergency Backup Systems
- Load-Shedding Solutions

Maintenance & Technical Services

- System Fault Finding
- Preventative Maintenance
- System Repairs & Upgrades

4. Mission Statement

To deliver dependable and innovative technology, security, connectivity, and energy solutions that enhance safety, productivity, and quality of life for our clients and communities.

5. Vision Statement

To be a leading South African provider of integrated infrastructure solutions, recognised for excellence in service delivery, technical expertise, and long-term reliability.

6. Core Values

Professionalism — We maintain high standards in all technical and client engagements.

Quality — We use reliable systems and follow best installation practices.

Reliability — We deliver solutions that perform consistently and effectively.

Safety — We prioritise safe working environments and compliant installations.

Integrity — We operate transparently, ethically, and responsibly.

Innovation — We adopt modern technologies to improve service delivery.

Customer Focus — We design solutions based on client needs and operational requirements.

7. Value Proposition

Batubatsi TS offers a fully integrated service model that combines:

- Security Systems
- ICT & Connectivity Infrastructure
- Solar & Energy Solutions

This allows clients to work with a single professional provider for multiple critical infrastructure needs.

8. Competitive Advantages

Integrated Service Delivery — One company providing security, connectivity, and energy solutions.

Professional Installation Standards — Structured planning, execution, and quality control.

Scalable Solutions — From small residential systems to large commercial and community projects.

Technical Support Lifecycle — Installation, maintenance, upgrades, and long-term system support.

Custom Engineering Approach — Solutions designed based on site-specific requirements.

9. Brand Positioning

BATUBATSI TS (PTY) LTD

Security • Connectivity • Energy

10. Corporate Motto

Connecting. Protecting. Powering.

- Connecting — ICT networks, wireless systems, and communication infrastructure
- Protecting — CCTV, alarms, access control, and security systems
- Powering — Solar energy and backup power solutions
